Objective

Motivated Software Engineering student seeking an internship opportunity to apply and enhance my skills in software development, databases, and hardware-based logic design. Passionate about building real-world projects and continuously improving my technical and problem-solving abilities.

Activities

- Worked on multiple academic software and hardware-based projects
- Strong participation in programming and DBMS assignments
- Active learner in software engineering and system design concepts
- Interested in freelancing and real-world software development

Projects

- Online Voting System (C++)
- Restaurant Management System (SQL + DBMS)
- Digital Lock System (Hardware Project)
- Digital Notice Board System
- Dancing LED System
- Soccer Frenzy Online Multiplayer Game

Technical Skills

- Programming: C++, Basic SQL
- OOP Concepts (Classes, Inheritance, File Handling)
- Database Design & Normalization
- Digital Logic Design (Logic Gates, Flip-Flops, Counters)
- Problem Solving & Algorithm Thinking
- Basic Hardware Project Development
- Tools: MS Word, Excel, Canva

Github Account

- <https://github.com/imanfatimz>

Skills

- C++
- SQL
- OOP
- Digital Logic
- Problem Solving

Education

Bachelor of Software Engineering

Institution: University of Engineering and technology, Lahore

Year of Graduation: Expected 2028

- Academic Scholarship Recipient
- Dean's List Honoree

Intermediate in Science, Mathematics and Physics

Institution: Punjab College, Faisalabad

Year of Graduation: 2024

- Achieved top 10% in the class
- Completed various software projects as part of the curriculum
